- Supplier Portal

Merit Sales Portal

Boost your sales and increase your customer service by implementing an easy to use, feature rich sales portal.

Merit Sales Portal is an intuitive and feature rich solution for presenting product information, entering sales orders, do inquiries on order status etc. It is designed to be used by your customers, your own sales personnel or by internal customer service.

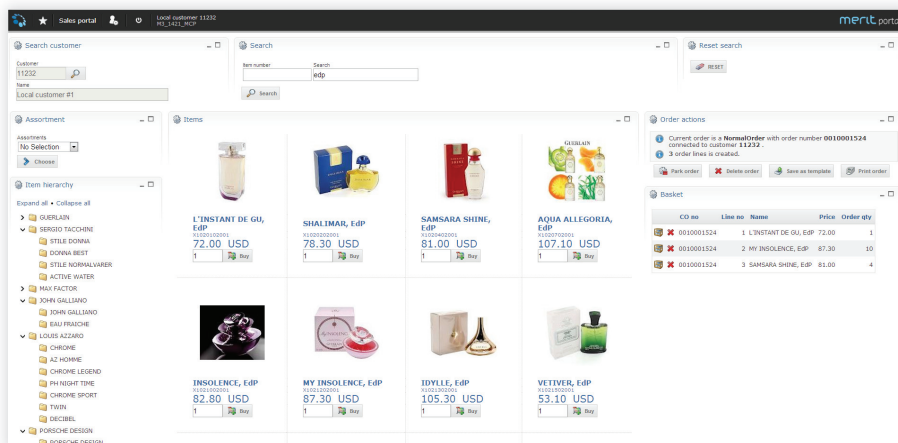

Merit Sales Portals extensive configuration possibilities together with real time integration with Infor M3's sales order solution, gives you the possibility to

design a Sales portal optimized for your needs. Merit Sales supports promotions, product attributes and configurations, M3 pricing methods, charges etc. It can be integrated with CMS systems to enrich product data, handle pictures and documents.

Merit Sales Portal can be combined with other Merit AppSuite products, like Merit Claim management and Merit Intelligence.

This gives you the possibility to design a complete portal for your customers or own staff.

Merit Sales portal is designed by experienced product specialists with extensive business knowledge. Our focus is to provide our customers with products which are highly configurable, easy to implement and at the same time with high quality.

Merit is a leading provider of business solutions in Northern and Central Europe.

We provide increased competitiveness to our customers, through state-of-the-art integrated standard software. Through knowledge and experience, Merit translates information into relevant knowledge for your business.
